

## Homework 5

### SQL Practice

Using the provided tables, turn in a SQL file that answers the following queries:

1. (10 pts) Find the name of all people who work for ACME Corporation with an annual salary over \$50,000.
2. (10 pts) Find the name, street, and city of all people who work for ACME Corporation and earn more than \$50,000.
3. (10 pts) Find all people who live in the same city as the company they work for.
4. (10 pts) Find all people who live in the same city and on the same street as their manager.
5. (20 pts) Assume that there are people in the table lives who do not work for any company. Find all people who do not work for ACME Corporation.
6. (20 pts) Find all people who earn more than every employee of ACME Corporation.
7. (20 pts) Assume the companies may be located in several cities. Find all companies located in every city in which ACME Corporation is located.
